John Deere Honors EMP as “Partner – Level Supplier”

Moline, IL – Engineered Machined Products Inc. (EMP) has once again been recognized as a Partner-Level Supplier in the John Deere Achieving Excellence Program. The Partner-Level status is Deere & Company’s highest supplier rating. EMP was honored in recognition of its dedication to providing products and service of outstanding quality as well as its commitment to continuous improvement.

John Deere recently recognized the EMP team of Marnie Anderson and Tammy Wolfe-Beauchamp during formal ceremonies at John Deere Headquarters in Moline, Illinois. EMP is a global supplier of water pumps and oil pumps for John Deere’s off-highway equipment, including agriculture and heavy-duty construction.

From Right to Left: Presenting the ‘Partner – Level Supplier Award’ is Daniel Gonzalez, Supply Base Manager for John Deere Power Systems. Accepting the award on behalf of EMP is Marnie Anderson and Tammy Wolfe-Beauchamp.

Suppliers who participate in Deere's 'Achieving Excellence' program are evaluated annually in several key performance categories, including quality, cost management, delivery, technical support and wave-length, which is a measure of responsiveness. John Deere Supply Management created the program in 1991 to provide a supplier evaluation and feedback process that promotes continuous improvement. This is the second year in a row that EMP has achieved this distinction from John Deere.

Engineered Machined Products, Inc. (EMP) is a leader in the development and production of thermal and oil management components and systems. EMP serves global customers in the on-highway, off-highway, marine, transit bus, motor coach, hybrid & specialty markets. For more information, visit EMP's website at www.emp-corp.com.
